

C. Amendment to the Specification

Please replace the paragraph at page 6, lines 19-21, with the following paragraphs:

--~~Figure~~ Fig. 1 is a schematic view ~~showing a film structure~~ of an ~~example~~ embodiment according to the present invention.

Fig. 2 is a schematic view of another embodiment according to the present invention.

Fig. 3 is a schematic view of yet another embodiment according to the present invention.

Fig. 4 is a schematic view of yet another embodiment according to the present invention.

Fig. 5 is a schematic view of yet another embodiment according to the present invention.--

Please insert the following paragraph at page 10, line 12:

--Several embodiments satisfying the above conditions are shown in Figs. 2-5. The reference numbers used in these Figures correspond to those used in Fig. 1.--

Please replace the paragraph at page 11, line 27, through page 12, line 7, with the following paragraph:

--A schematic view of the film structure is similar to ~~Figure~~ that shown in Fig. 1. As the geometric film thickness, the protective layer 40 had 55 nm for the Al_2O_3

film and 60 nm for the TiO_2 film. The underlying layer 20 had almost the same geometric film thickness as of the protective layer. The initial reflectance of the silver surface reflection mirror was satisfactory, i.e., 97% or more (wavelength: 550 nm).--
